DISCOVER MORE

THE TICHE PROJECT

Eramus+ project will establish a European VET Academy on Circular Economy, to support the greening of economies and human capital. TICHE is based on transnational cooperation of a highly experienced and complementary partnership including Research centres, VET centers, Universities, SMEs, Clusters, Umbrella organizations, and international networks. Working together as an ecosystem, TICHE will increase the capacity building of the VET systems within the “European Education Area”.

RESULTS

RESEARCH REPORT ON TRAINING BEST PRACTICES ON SUSTAINABILITY AND CIRCULAR ECONOMY

Analysis of the existing VET offers focused on Sustainability, Eco-innovation, and Circular Economy management at the European level

SKILLS CATCHER

Interactive, dynamic tool will map the essential “green skills” needed to enable a sustainable and circular economy transition.

SETTING AND PILOTING OF A EUROPEAN ACADEMY ON CIRCULAR ECONOMY

Designing, developing, and piloting of the TICHE ACADEMY training framework in all partner countries, Italy, France, Ireland, Germany, Finland, and Greece, with 300 people involved.

At least 40 international training initiatives will be developed, and out of them, at least 7 will be piloted during the project's life

OUR TARGETS

The prior targets of the project are:

- Entrepreneurs
- Worker, unemployed
- Consultants & professionals
- Green jobs seekers
